Tutorial 11 Mongo DB (contd.)

Task: MapReduce

I. Write a Map Reduce function to generate a report of the total number of male and female unicorns.

II. Write a Map Reduce function to generate a report of female unicorns who have less than 50 vampires.

III. Write a Map Reduce function to generate a report of the total number of male and female unicorns born before 1990.

Task: Aggregation

Rewrite the above using aggregation pipeline operators.
